This assessment will consider, in the case of the Board or a committee of the Board, its mandate or charter and, in the case of individual directors, the applicable position description as well as the competencies and skills each individual director is expected to bring to the Board;
  - (iii) ensuring that, where necessary, appropriate structures and procedures are in place to ensure that the Board can function independently of management and to facilitate open and candid discussion among its independent directors, including, without limitation, that a lead director is appointed if the CGN Committee determines that such appointment would facilitate the independent function of the Board;
  - (iv) ensuring compliance with the Corporation’s Guidelines for the Composition of the Board of Directors;
  - (v) preparing or reviewing any disclosure that must be made or approved by the Board that relates to corporate governance matters;

- (vi) periodically examining the size of the Board, with a view to determining the impact of the number of directors upon effectiveness, and making recommendations where appropriate to the Board as to any programs the CGN Committee determines to be appropriate to reduce or increase the number of directors to a number which facilitates more effective decision making;
- (vii) identifying individuals qualified to become new Board members and recommending to the Board the director nominees for the next annual meeting of shareholders;
- (viii) assessing directors on an ongoing basis;
- (ix) developing, with the assistance of management, an orientation and education program for new recruits to the Board, where necessary;
- (x) considering questions as to the appropriateness of a director engaging an outside advisor at the expense of the Corporation in the circumstances required by applicable policies of the Board;
- (xi) reviewing and assessing the effectiveness of the Corporation's programs, policies and standards related to worker health and safety; environmental matters including water, biodiversity, waste and air quality management; emergency response plans; emissions and climate change; community and Indigenous People's engagement; diversity and human rights and related matters (collectively "Sustainability Matters");
